144x32	16 characters	16 characters	16 char/line	16 char/line	24 char/line	28 char/line

**NOTES:**

- These numbers are based on using standard 5x7 font. Using a compressed font will enable more characters to fit on a line.
- The number of characters per line is for a typical message. They may change depending on which characters are used. (a W uses more pixels wide than an I)
- The 2500 series pixels are on .45 inch pitch. 15 pixel high characters rounded up to 7"
- The 2600 series pixels are on .60 inch pitch
- The 3500 series pixels are on 1.375 inch pitch. 5 pixel high rounded up to 7 inch, 7 pixel to 10 inch, 10 pixel to 14 inch & 15 pixel to 21 inch.
- To get 24 pixel font, use 15/16 double high.
